ABOUT ME

Visual Effects graduate from **The One Academy** passionate about digital compositing and cinematic storytelling. Skilled in NukeX, Maya, and Houdini with hands-on experience in multi-pass CG integration, camera tracking, and roto/paint clean-up. Adaptable, collaborative, and dedicated to contributing high-quality shots to professional VFX pipelines.

TECHNICAL SKILLS

Core Compositing: Multi-pass EXR CG Integration, Green/Blue Screen Keying, Rotoscoping, Clean-up / Wire Removal, Camera Tracking & Matchmove, Lookdev, Color Grading, Deep Compositing.

Software: NukeX, Maya, Houdini, ZBrush, PFTrack, After Effects, Premiere Pro.

SELECTED VFX PROJECTS

Jack Sparrow Digital Double & Lookdev *Lead Compositing & CFX* Academic Project

- Executed photorealistic multi-pass EXR CG compositing in NukeX, seamlessly integrating complex 3D character assets (Maya, Houdini, ZBrush) with digital background elements.
- Handled precision camera solve/tracking, roto clean-up, depth/atmosphere matching, motion blur, and final lookdev color grade to achieve cinematic fidelity.

Rose and I & I Will Love You Eternity *Director & Post-Production Lead* Short Films

- Directed and supervised end-to-end post-production pipelines, overseeing narrative editorial pacing, visual continuity, and delivery.
- Executed VFX shot integration, screen replacement, rig removal, and comprehensive cinematic color grading for festival exhibition.

WORK EXPERIENCE

Video Editor *Freelance* Jul 2024 — Aug 2024

- Edited short-form commercial and promotional video content from assembly to final delivery, ensuring rapid turnaround and precise client feedback implementation.

Design Team Specialist *Stun PC Trading* Feb 2024

- Designed promotional digital visuals and platform banners, strengthening visual branding and user engagement across online channels.
